HIGHWOOD PARISH COUNCIL

LHP Reports:

Highwood Road, Loves Green – Remedial works to existing buildouts - Total scheme LCHE202042 £4,800 - added to Funded Schemes List June 2021 using additional 2021/22 - may slip into 2022/23

Highwood Road, Loves Green – HGV signs - Measures to reduce excessive HGV traffic LCHE202028 TBC Awaiting programme date for ATC survey

Highwoods Primary School 20mph with wig-wags Validation - posted 30mph - North-east bound 27.3mph & South-west bound 26.9mph. Good speed compliance. No pattern of personal injury – no accidents in last five year period.

Highwood Road, Edney Common to Loves Green - 50mph speed limit LCHE152124 £14,500 Speed data - 60mph speed limit - 150m SW of A414 - Northeast bound - 41.5mph & Southwest bound - 37.5mph, 930m SW of A414 - South bound - 46.4mph & 49.9mph, 560m Northeast of Nathans Lane - Northeast bound - 46.5mph & Southwest bound - 46.6mph. Based on speed data - 30mph limit near A414 not feasible as recorded speeds are too high, also environment of road would not assist a 30mph limit as properties not apparent to drivers. Whilst it could though be possible to consider a 50mph limit, this may in turn increase speed of traffic

Highwood Road Edney Common to Loves Green, including St Pauls Church – Footway - 1.2m walkable verge, crossing point at Highwood Road and removal of informal layby at St Paul's Church LCHE142040 £272,500. From design - Part 1- Highwood to St Pauls Church - £78,000 and Part 2 - St Paul's Church to Edney Common - £194,500

Email of 22nd July to Clerk – “Cllr Daden (who is also on the LHP) and I have been exploring options for the footpath as the LHP scheme is too expensive. My experience of these type of things is that such costs are driven by the design regulations and safety aspects of implementation. So getting the same but cheaper will not happen”. There is the option of just cutting the verges so they were walkable, the Parish Council could potentially do this in the first instance with permission of Essex County Council or the Highway Rangers may be happy to undertake this.

Defects

2684911, 2687593, 2691596, 2697796

According to our records, remedial work to these reference numbers has been completed.

2696799, 2697789, 2697790, 2699659, 3451935, 3415584, 3541416, 3562186, 3166739, 3562188, 3562186, 3318545, 3562204, 3562194, 3318544, 3562183, 3541415

Following inspection, the issues reported under these reference numbers are not considered to warrant immediate repair as set out in the Maintenance Strategy and will therefore be repaired at a later date, which at this stage I am unable to provide. Essex Highways unfortunately has to make difficult decisions when deciding on which maintenance issues to prioritise due to the wide ranging function of highway maintenance. It is therefore essential that they have a robust prioritisation process that allows them to focus on the areas of greatest need with all service requests being assessed and prioritised according to their level of severity.

In the event that the condition of these issues significantly deteriorates or there is a specific issue your resident's are concerned about, they can report this via dedicated [Report it Tool](#).

2687525, 3516711, 3516710

Remedial work is currently being planned by the programming team and we will aim to have this completed as soon as possible.

2698022, 2699655, 2723607

Following assessment, the Inspector does not consider there to be an issue which warrants urgent works or which meet the criteria for repair set out in our Maintenance Strategy.
